

Ideation Phase

Brainstorm & Idea Prioritization

Date	27/09/2026
Team ID	SWTID-2026-8900
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Brainstorm & Idea Prioritization:

The main objective of this ideation session is to identify an efficient, automated solution for the IT procurement process, specifically for standard laptop requests. Our team collaborated to brainstorm various approaches to eliminate manual task generation, reduce approval delays, and ensure seamless hardware configuration by leveraging ServiceNow's Flow Designer capabilities.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 🕒 10 minutes to prepare
- 🕒 1 hour to collaborate
- 👤 2-8 people recommended

Before you collaborate

🕒 10 minutes

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

1

Team gathering

- Project Lead, ServiceNow Developer, IT Procurement Analyst, Hardware Support Specialist.

2

Set the goal

Automate the manual request-to-delivery workflow for standard laptop procurement in ServiceNow using Flow Designer to reduce delays and eliminate manual task assignments.

3

Learn how to use the facilitation tools

Used Mural digital canvas for remote sticky-note collaboration.

Define your problem statement

🕒 5 minutes

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

PROBLEM

How might we automate catalog task generation and assignment in ServiceNow upon standard laptop request approval, so that the Hardware group can immediately configure laptops without manual dispatch delays?

- Stay focused on automating ServiceNow task generation and routing.
- Encourage all low-code/no-code ideas using native ServiceNow platform features.
- Defer judgment during initial idea listing.
- Aim for volume and actionable automation steps.

Key rules of brainstorming

To run an smooth and productive session

- Stay in topic.
- Defer judgment.
- Go for volume.
- Encourage wild ideas.
- Listen to others.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

 10 minutes

TIP You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing

Person 1

- Standard Laptop Catalog Item Request Creation
- Automatic RITM Generation upon User Submission
- Role-based Access Control for Ordering

Person 2

- Manager Approval Workflow via Flow Designer
- Auto-approval for Standard Laptop Configuration
- Notification Alerts on Request Approval

Person 3

- Automatic Task Creation for Hardware Assignment Group
- Auto-assignment to On-duty Hardware Technicians
- SLA Tracking for Laptop Delivery Task

Person 4

- Asset Management Status Update to Reserved
- Inventory Count Auto-deduction in ServiceNow
- Serial Number Tracking and Assignment

Person 5

- Automated Email Notification with Tracking Link
- Closure of Parent Request upon Task Completion
- User Feedback / CSAT Survey Generation

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

Ⓢ 20 minutes

TIP Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

- **Category A: Process Automation (Flow Designer)**
 - Trigger selection: Service Catalog.
 - Run flow as System User in Global application.
 - Auto-create Catalog Task.
- **Category B: Catalog Engine Mapping**
 - Link flow to 'Standard Laptop' record inside Maintain Items module.
- **Category C: Task Routing & Fulfillment**
 - Set Assignment group to Hardware.
 - Pre-fill short description as 'Laptop need to Configured'.

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding the **H** key on the keyboard.
